

jQuery

Make consistence among all browsers.

`$()` = jQuery obj

```
$(document).ready( function(){} );
```

```
dolt("rich");  
dolt("sva")
```

```
Function dolt(param);  
    console.log(param);
```

Will load "rich" > "sva"

```
dolt("rich");  
dolt("sva")
```

```
Function dolt(param);  
    console.log(param);  
    console.log("hello");
```

Will load "rich" > "sva" > "hello"

```
return (value.length < 2)? "0" + value : value;
```
